

It is our great pleasure to invite you to the joint IUFRO conference of two IUFRO units (1.01.09 Ecology and Silviculture of Fir and 1.01.10 Ecology and Silviculture of Pine)

ABIES & PINUS 2022.

Fir and pine management in changeable environment: risks and opportunities

The conference will be held from September 19-22, 2022, in Sarajevo, Bosnia and Herzegovina. Three keynote speakers, five sessions, an in-congress and a post-congress tour should be of great interest for all scientists and experts working on *Abies* and *Pinus* species. The meeting is hosted by University of Sarajevo, Faculty of Forestry.

Sessions

1. Stand dynamics of fir and pine forests: regeneration, growth, mortality, dendrochronology, and soil fertility
2. Ecology and management of fir and pine species in changeable environment
3. Gene pool and provenances of fir and pine species: improving adaptability to a changing environment
4. Providing products and ecosystem services from fir and pine forests
5. Silviculture and management planning given the pressure on wood requirements

Post-congress tour

September 23-25, 2022: From the Dinaric Mountains to the Adriatic

Conference venue

University of Sarajevo, Faculty of Natural Sciences and Mathematics
