

Regeneration of Soils in the Mediterranean

as the ground for sustainable food production
and to maximise water retention

*Skills for sustainable,
resilient, and socially
fair communities*

3-11 June 2023

#EUGreenWeek
PARTNER EVENT

June 7, 2 p.m. GMT+1 (Lisbon time)

Teaser*

Soil is a fragile resource that needs to be carefully managed and safeguarded for future generations. Soils are the foundation of our food systems, and provide clean water and habitats for biodiversity, while contributing to climate resilience, in the Mediterranean region.

Specific Goals of the Event*

The main aim of this conference is to raise public awareness about the EU Mission 'A Soil Deal for Europe' and role of living labs in the transition towards healthy soils by 2030.

Short Programme Description / Draft agenda*

Muriel Mambrini, INRAE, France

Keynote Speaker

“Soil Living Labs - what they should be, their construction, their expected impact”

Followed by a **Round-Table** with different key actors and stakeholders

Nazaré Couto, Universidade Nova de Lisboa-CENSE|CHANGE

Pedro Atalaya, Ovicharol, Lda

Sérgio Pratts, Universidade de Évora-MED|CHANGE

Diogo Costa, Universidade de Évora-MED|CHANGE

Moderated by *Susana Filipe*, Universidade de Évora-MED|CHANGE
